

ITR BRAKE FLUID DOT3

ITR BRAKE FLUID DOT3 is a heavy duty, high boiling point, synthetic brake and hydraulic Clutch release fluid. It is suitable for all conventional drum and disc brake system under arduous conditions.

PERFORMANCE STANDARDS

- Exceeds Federal Motor Vehicle Safety Standard n°116 DOT 3
- SAE J 1703, NF R 12-640 , ISO 4925,
- ITR BRAKE FLUID DOT3 meets the requirements of European Manufacturers

TYPICAL CHARACTERISTICS

- Equilibrium Reflex Boiling Point (ERBP)°C: 238
- WET ERBP °C: 148
- Kinematic Viscosity mm Sq. Per second @ 40°C (ASTM D 445): 1300
- Kinematic Viscosity mm Sq. Per second @ 100°C (ASTM D 445): 2.4
- PH Value(50% vol aqueous ethanol solution): 9.0
- Corrosion Test strip weight change mg/cm2
- Tinned iron :0.01
- Steel: 0.01
- Aluminum: 0.04
- Cast Iron: 0.13
- Brass: 0.08
- Copper: None
